

Gate monitoring system for tracking dump truck activity.

Automate demand data capture with specialized cameras.

- ✓ Recognizes license plates accurately.
- ✓ Detects over 10 vehicle types.
- ✓ Full gate control via RFID options.
- ✓ Monitors stay duration and trends.
- ✓ Identifies uncovered dump trucks.
- ✓ Overweight Predictions.

Seamless Ticketing Integration

Integrate your ticketing and scaling systems, verify load exits with camera events, validate data against third parties, and get alerts for untagged vehicles.
